# **Equity Market Review**

During the period under review KSE-100 index (the benchmark) has increased by 30.61% as compared to increase of 20.16% during the same period last year.

The period under review commenced with positive note and posted a handsome return of 22.30% in 1st two months, mainly on the back of decelerating Covid Pandemic's active cases and sharp increase in inflow of foreign currency in form of investments. Decrease in CPI inflation, unexpected growth in remittances which resulted in a surplus in Current Account further boost the investor's confidence.

During the month of September and October KSE-100 Index remained range bound on the back of rising political uncertainty in the country, following 11-party opposition's All Parties Conference (APC) asking for resignation of Prime Minister Imran Khan. Arrest of a key leader from the opposition party and increase in number of victims of Covid-19 also deter the investors' confidence.

During the last two months of the period the benchmark remained positive on the back of Joe Biden's Presidential win in the US, and major headway in development of a COVID-19 vaccine with Pfizer/BioNTech's and Moderna announcing efficacy of 95%. Unimpressive PDM's rally in Lahore and uptrend in economic activity as manifested by the frequently released economic data also boost the investor's confidence.

# License of Asset Management Company

7.1.1 The Finance Act 2014 brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5% is to be applied on the value of bonus shares determined on the basis of day end price on the first day of book closure. The tax is to be collected at source by the Company declaring bonus shares which shall be considered as final discharge of tax liability on such income. However, the Management Company of the fund along with other asset management companies and Mutual Fund Association of Pakistan, had filed a petition in the Honorable Sindh High Court ("the Court") to declare the amendments brought into the Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes ("CIS") as null and void and not applicable on mutual funds based on the premise of exemption given to mutual funds under clause 47B of Part IV and clause 99 of Part I of the Second Schedule of the Income Tax Ordinance, 2001. The Court has granted stay order in favor of CIS till the final outcome of the case. Accordingly, the investee companies have withheld the shares equivalent to 5% bonus shares announcement and not deposited in CDC account of department of Income Tax. However, the Fund has included bonus shares withheld by the investee companies in its investment portfolio amounting to Rs. 0.5625 million (June 30, 2020; Rs. Rs. 0.3552 million)

9.1 The income tax of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income tax Ordinance, 2001 (ITO 2001). Further, the Fund is exempt under clause 47(B) of Part IV of Second Schedule to the ITO 2001 from withholding of tax under section 150, 151 and 233 of ITO 2001. The Federal Board of Revenue through a circular "C.No.1 (43) DG (WIT/2008-Vol.II- 66417-R dated 12 May 2015, made it mandatory to obtain exepution tax certificates under section 159 (1) of the ITO 2001 from Commissioner Inland Revenue (CIR). Prior to receiving tax expention certificate(s) from CIR, various withholding agents have deducted advance tax under section 150 and 151 of ITO 2001. The management is confident that the same shall be adjustable against future tax liabilities, if any.

- 10.1 Under the provision of NBFC Regulations, 2008 vide SRO 1160(1)/2015 dated 25 November 2015, the Management Company of the fund is entitled to an accrued remuneration of an amount not exceeding 2% per annum of the average annual net assets of the Fund. Management Company has charged remuneration at 2% on the net assets of the Fund.
- 10.2 The Provincial Government of Punjab levied Punjab Sales Tax at the rate of 16% on the remuneration of the Management Company through the Punjab Sales Tax on Services Act, 2012 effective from July 01, 2012.
- 10.3 As per the requirement of Finance Act, 2013, Federal Excise Duty (FED) at the rate of 16% on the remuneration of the Management Company had been applied effective from 13 June 2013. The Management Company is of the view that since the remuneration is already subject to provincial sales tax, further levy of FED may result in double taxation, which does not appear to be the spirit of the law, hence a petition was collectively led by the Mutual Fund Association of Pakistan with the Flonorable Sindh High Court (SHC) on 4 September 2013.

The Honorable Sindh High Court (SHC) through its order dated 2 June 2016, in CPD-3184 of 2014 (and others) led by various taxpayers, has interalia declared that Federal Excise Act 2005 (FED Act) is on services, other than shipping agents and related services, is ultra vires to the Constitution from 01 July 2011. The Sindh High Court in its decision dated 16 July 2016 in respect of the constitutional petition led by the management companies of mutual funds maintained the previous order on the FED.

Sindh Revenue Board and Federal Board of Revenue have led appeals before Honorable Supreme Court against the Sindh High Court's decision dated 2 June 2016, which is pending for the decision. However, after the exclusion of the mutual funds from federal statute on FED from 1 July 2016, the Fund has discontinued making the provision in this regard.

Since the appeal is pending in the Supreme Court of Pakistan, the Management Company as a matter of abundant caution has retained provision for FED on management fee aggregating to Rs. 3.713 million (June 2020: Rs. 3.713 million). Had the said provision of FED not been recorded in the books of account of the Fund, the net asset value per unit of the Fund would have been higher by Rs. 0.2330 per unit (June 2020: 0.2233 per unit).

#### 19 Financial instruments - fair values and risk management

Fair value is an amount for which asset can be exchanged, or liability settled, between knowledgeable willing parties in arm's length transaction. Consequently, difference may arise between the carrying values and fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Fair value of underlying financial assets are determined based on requirement of regulation 66(a) of NBFC Regulations, 2008 and directives if any issued by the SECP. The fair value of financial assets traded in active market i.e. listed securities are based on quoted market price at stock exchange as determined in accordance with its regulations.

The Fund measures fair value using the fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Quoted market price (unadjusted) in an active market for an identical assets or liabilities (Level 1)
- Input other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i-e. as prices) or indirectly (i-e derived from prices) (level 2)
- Input for the asset or liability that are not based on observable market data (i-e. unobservable) inputs (Level 3)

# 20 Impact of COVID-19

In March 2020, the World Health Organization ("WHO) declared the outbreak of the novel coronavirus (known as COVID-19) as a global pandemic. The rapid spread of the virus has caused governments around the world to implement stringent measures to help control its spread, including, without limitation, quarantines, 'stay-athome" or 'shelter-in-place" orders, social-distancing mandates, travel restrictions, and closures or reduced operations for businesses, governmental agencies, schools and other institutions. The industry, along with global economic conditions generally, has been significantly disrupted by the pandemic.

The COVID-19 pandemic and associated impacts on economic activity had certain effect on the operational and financial condition of the Fund for the period ended 31 December 2020 due to the subdued equity market performance because of overall slowdown in economic activity and continuity of business operations. However, to reduce the impact on the economy and business, regulators I government across the country have introduced a host of measureson both the fiscal and economic fronts from time to time.

The management of the Fund is closely monitoring, the situation and in response to the developments, the management has taken action to ensure the safety of its employees and other stakeholders, and initiated number of initiatives.

The Management Company of the Fund expects that gong forward these uncertainties would reduce as the impact of COVID- 19 on overall economy subsidies and have concluded that there is no impact on current financial statements of the Fund.
