**Market Review:** During the month of November 2021 KSE-100 (the benchmark) decreased by 2.48%. The negative return is attributed to higher than expected increase in policy rate by SBP and passive outflows on the back of Pakistan's formal downgrade from MSCI Emerging Market Index to Frontier Market. Pakistan reaching staff level agreement with the IMF failed to improve investors' sentiment amid concern over deteriorating macros.

During the month under review Leather, Real Estate and Glass sector performed better than other sectors while on flipside Engineering sector, Cable and Electric sector, and Auto Parts remained the underperformers.

Foreign investors remained net seller with the outflow of US\$ 141.342 million during the month under review, as compared to outflow of US\$ 30.87 million in previous month.
