Market Review: During the month of December, KSE-100 index (the benchmark) remained range bound and posted a return of 3.35%, and also recorded a new high of 66,437 points. Recovery in market subjected to decline in international oil prices, expectation of monetary easing in the latter half of the fiscal year, and foreign inflows in stock market. On the other side, political noise close to election date resulted in profit taking by the market participants and unwinding of leverage positions led the market to remain range-bound.

During the month Cable & Elec. Goods, Commercial Banks, Engineering, Fertilizers, Leather & Tanneries, Oil & Gas Exploration Companies, Paper & Board, Refinery sectors outperformed the market. On flip-side Auto Assemblers, Auto Parts & Accessories, Cements, Chemicals, Food & Personal Care, Glass & Ceramics, Miscellaneous, Modarabas, Oil & Gas Marketing Companies, Pharmaceuticals, Power Generation & Distribution sectors underperformed the market. Foreign investors remained net buyer with an inflow of US\$ 26.72 million during the month under review, compared to an inflow of US\$ 34.50 million in the previous month.
